WHAT IS FIRST

FIRST is the world's leading STEM nonprofit. For 31 years, FIRST has been inspiring innovation and leadership by teaching STEM, teamwork, and problem-solving skills through engaging, hands-on robotics challenges.

We compete in the FIRST Tech Challenge where we learn...

- Business planning, marketing, and fundraising
- Working with tools and equipment
- Computer-Aided Design (CAD)
- Programming (Vision Tracking, Autonomous, etc.)
- Leadership, communication, and teamwork skills
- Advanced engineering and math concepts
- Media (Photography & Videography)
- Writing Skills (Business, Technical Explanations, etc.)

OUR IMPACT

SCARBOROUGH STEM ALLIANCE

One of the most monumental moments in our FTC journey was the founding of the **Scarborough STEM Alliance (SSA)**. Starting early last year, our goal was to make STEM education **more accessible** within our local community. This was done through numerous workshops, partnering with **over 50** schools, colleges, community centers, senior homes and the Toronto Public Library.

Engaged with over
3,000 students

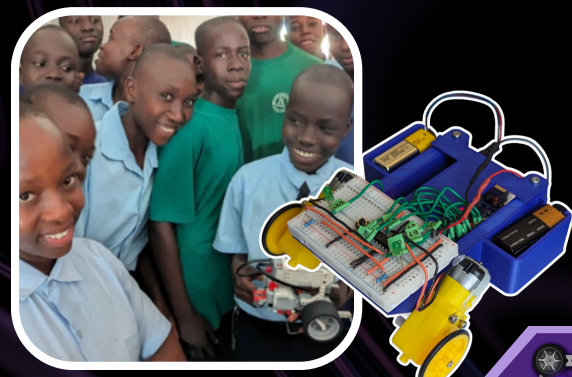

Founded 5 FIRST
teams

Ran over 50
workshops

ARDUINO KITS TO UGANDA

We initiated a project aimed at promoting STEM education in **Uganda**. We developed **custom Arduino robotics kits** equipped with all the necessary components for students to explore the engineering process. Upon arrival, these 15 kits will be **distributed to students** in Uganda.

OUR MISSION

Starting as a group of friends passionate about FIRST Robotics, we aim to empower youth as future innovators and leaders through STEM. To achieve this, we founded the Scarborough STEM Alliance, and through our numerous education initiatives, we are committed to inspiring the next generation of STEM enthusiasts.

ACHIEVEMENTS

2023 - 2024 : CENTERSTAGE

Provincial Championships | Kingston, ON

Inspire Award Winner

Qualified for World Championships

Regional Championships | Mississauga, ON

Inspire Award Winner

Finalist Alliance Captain

Innovate Award Winner

2022-2023 : POWERPLAY

World Championships | Houston, TX

Top 25 Robot Performance

Provincial Championships | Toronto, ON

1st Place Inspire Award

Qualified for World Championships

Former Canadian High Score Record (224 points)

Devolotics Will Proudly Represent Team Canada At The FTC World Championships For Two Consecutive Years

BENEFITS

TIER 1
